

Boiler Operators/Licensing Q&As

1. Where can a company get boiler training/licensing for employees?

Answer: Wisconsin Technical Colleges can be contacted and for outreach boiler operator training for plant personnel.

Other training and licensing organizations:

- American Society of Plant Engineers: www.asope.org
- National Institute Uniform Licensing of Plant Engineers: www.niulpe.org
- Training Online and Service Company ... Combustion Safety Inc: www.combustionsafety.com

2. What are the licensing requirements in the state of Wisconsin for boiler operators?

Answer: Wisconsin does not require boiler operator licenses. These requirements are administered locally by city and/or county governments. Call the city or county you will be operating the boiler in and ask if they have any licensing requirements.
